Michael Segelnick - American High School Principal

Dear Parent and Students,

The 2019-2020 school year has been an interesting one. In a world where we are so use to sports, entertainment, malls and shopping to occupy our free time, it is hard to get use to this new way of life. We know this is a difficult time for you all. We are all going through this together. One of the many beauties of online schooling is that your education will not suffer in times like these. We want you to know that we will continue to be here for you and your children throughout these tough times. Your education is still a priority for us. So enjoy the extra time with your families and use this time to get back to a quieter simpler way of life.

Quarantine Time!

Hello, my name is Gonzalo Arés and I am a student in American High School. During these weird times, I've had to reorganize my daily routine. When this started, I had to adapt to the new working method

I had in my Spanish school. After a few days, I decided that in these difficult times, I should

take advantage of the situation and work as hard as possible while we were confined at home. I decided I would do at least one lesson every two days and that I would dedicate a lot of time for my Unit Projects so that I could advance fast while I was in quarantine.
