June incentive prize winners.

Again, let's see who obtains 10 A+s in any subjects for assessments, assignments and projects (not necessarily consecutive) between 1st and 30th June 2020. This will be our last Incentive for this academic year, try your best!

Congratulations and keep up the good work!

Important reminders

June has definitely arrived! That means that you are now in the final stretch to finish all your subjects. Please dedicate as much time as possible to your American High School program so that you complete this year's subjects on time.

Remember that the start and finish dates on the platforms do not apply to Language Kingdom students. If you are not sure of the date which students must complete this year's subject by, please contact Carolina Iglesias by Teams or by email: carolina@lkidiomas.com

Bear in mind that not finishing on time means extensions or re-enrolments with extra costs!

For those who have already completed all their subjects, or are near to finishing them, we want to congratulate you all, as you have made a great effort which will be compensated with a well-deserved summer break. Enjoy it!!

LK AHS News will return during the next school year, but we will be always available by phone and mail.

Hi everyone!

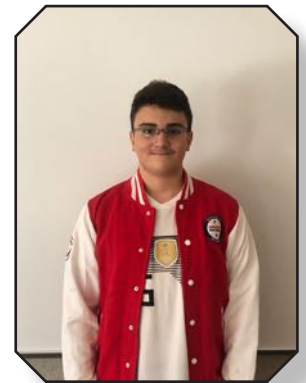

We are Alejandro and Rubén, from Spain, specifically from a medium-sized town called Valladolid, placed in the north-west of our country. We study at "Instituto Politécnico Cristo Rey", a Jesuit School.

We wanted to join the program because we aimed to get a higher level of English and someday we would like to travel to the United States. We think this program is useful for us because we can learn things about the history of America and also improve our English knowledge.

I am Alejandro and, in my case, I joined the American High School Program because I wanted to improve my English. In the future, I would like to work in America in a very important videogame company as Blizzard or Ubisoft or in a technological company like Apple or Microsoft. Also, I would like to travel to New York with my mother because she has dreamed of travelling there since she was very young.

I am Rubén and I joined this program because I like to use technology for educational purposes and I would like to speak English more fluently. I am interested in History, too. Also, I would like to travel to America in the future because I would like to be a programmer in a digital industry like Microsoft or become an indie game developer.

Homeschooling and online learning are a win-win situation when referring to the American High School program. Nowadays, students, their parents, and educators around the world are feeling the extraordinary effect of the novel coronavirus as schools are shutting down and quarantine methods are being ordered to cope with the

global pandemic. Far from being a disgrace, this time at home has been a blessing for the AHS students at Cristo Rey since most of them have been taking advantage to continue with their subjects.

Guess we are all looking forward to summer vacation!!
